Copy of YPT Funding Overview for Anaconda Work.xlsx  
ATT00001.htm

Enrique and Angeles,

See below my follow up  
email from 9/26 indicating additional questions.

After the 9/27 YPT council meeting I sought clarification from you and Ginny as to whether we were just talking about the superfund funding or other grant funding. At that time Ginny and YPT were under impression that not being on NPL would jeopardize non superfund grant funding. You were going to talk with EPA grant funding and get back to Ginny. I don't have record or recollection of any further communication and did not consider it NDEP responsibility to follow up given the next day events.

The next day 9/28 we had the MOU working session with Tribes. At that meeting YPT and WRPT cut off discussion about the MOU with EPA and NDEP and gave us their list of demands. Our attorney transmitted those to ARC.

Now comes Chairman Thom and Ginny yesterday insisting in front of Enrique that NDEP has not followed through. I am not going to tolerate that not then not going forward.

I am willing to move forward as Enrique suggested yesterday, but I am having serious doubts about acting as a kind of go between between YPT and ARC. We need to be very careful here. NDEP cannot appear to be advocating on the Tribe or on their longtime consultant behalf. That is not appropriate. We are a public agency and we hold the public trust, all of the public.

**Subject: FW: YPT Superfund funding breakdown**

Angeles,

I appreciate you sending this but NDEP has a number of questions about this table we would like to discuss further with YPT and EPA.

We can address those during the IAOC discussion with Tribe and EPA on Thursday.

Greg

Angeles,

Please find the YPT Superfund funding breakdown we discussed at our meeting yesterday, 9/18/2017.

Thank you,

--
